Fly

by jai Moi

(Chorus 2x)

You can fly

Just spread your wings baby

Fly

The only limit's the sky

Don't let no one take you down just spread your wings baby

(Verse 1)

To the people of the streets

Got no place to rest your head

You're holding on to the past don't overlook all those tests

Don't let life bump you on the side of the road

Make your own way

Take control

I know it's hard

You gotta make that first move

Gotta make that start

(vamp)

Stand up and hold your head up high

Don't let no one tell you you can't soar to the sky

(chorus 2x)

(Verse 2)

To my girls looking for love in all the wrong places

Be mindful of all those unfamiliar faces

Don't allow your light to lose its shine

You're so unique

You're one of a kind

I know it gets dark

You gotta remember who you are

You are a star

(vamp)
(chorus 2x)

(bridge)
When life takes you through it don't stop
Even though you might think you should just give up
Keep your praises going straight up
Cause with you heart's not through
Don't fail the test you're given
Before you know it you'll be winning
Your past life will be forgiven
Heeeeeeeey
Baby fly

(chorus)
