Come, come on a ride,  
I'll take you through the stars, space and time.  
Words won't mean a thing,  
'cause there'll be no words where we're going.

In your sleep, in my dreams  
Well, I'm crawling through the haze,  
I've been a Green Man for days out long.

Be more true out linking,  
Where the blue skies go so make a mistake.  
Dream, mine all alone  
That in the heading smoke all I do is blow.

In your sleep, in my dreams  
Well, I'm crawling through the haze,  
I've been dreaming for days out long.

Come, come on a ride  
I take you through the stars, space and time  
In this world of mine.

In your sleep, in my dreams  
Well, I'm crawling through the haze,  
I've been a Green Man for days out long.
