Fill my head with the future
Fill my eyes with the sky
Whole of my life I've been left behind
But I've never felt more alive.

High speed conversations
Speeding on down the line
Looked in your eyes
Said the saddest goodbye
But I've never felt more alive.

I can taste it
In my mouth it's just so bitter sweet
It's right there in your eyes of apple green
It should be easy but it's hard to leave

Went down in a fiery Zeppelin
You won't know if you don't try
Nothing but my shirt
And I walked away hurt
But I've never felt more alive

Talking on a bad connection
Think I might have fused a wire
Your on the other side as our voices died
But I've never felt more alive

I can taste it
In my mouth it's just so bittersweet
It's right there in your eyes of apple green
It should be easy but it's hard to leave.

Yeah and this road between us
Man it's been a long hard drive
You pay for it in the morning when your best friend is denied

Flying all around, never looking down
No I've never felt more alive.
Journeys going fast
I hope it's gonna last
Cause I've never felt more alive. Oh.

I can taste it
In my mouth it's just so bittersweet
It's right there in your eyes of apple green
It should be easy but it's hard to leave.
