"Close Your Eyes"

Visit "[Close Your Eyes](#)" on MotoLyrics.com

I'm just writing this song
To feel closer to you
You're just so far away
I hope you're waiting too

PRE-CHORUS

Everything is so full of hope
I'm scared of losing it
Believe me, I can wait
There's nothing in the world that can destroy this

CHORUS

Close your eyes
I'm singing a song
It's a message for you
I hope you won't take long
Close your eyes
And give me your hand
As this could be the last year
Kiss me and hug me then
'cause I wanna be with you
Till the end

You know what? I dream about the future
Why is that I'm not able to change time
I guess this is a test for us
If we were strong enough to make it happen

PRE-CHORUS

Everything is so full of hope
I'm scared of losing it
Believe me, I can wait
There's nothing in the world that can destroy this

CHORUS

Close your eyes
I'm singing a song
It's a message for you

I hope you won't take long
Close your eyes
And give me your hand
As this could be the last year
Kiss me and hug me then
'cause I wanna be with you
Till the end

I'm not hiding I'm afraid
People can't see a happy face
They will try to break what we have
But I'm here to start again

Close your eyes
I'm singing a song
It's a message for you
I hope you won't take long
Close your eyes
And give me your hand
As this could be the last year
Kiss me and hug me then

CHORUS

Close your eyes
I'm singing a song
It's a message for you
I hope you won't take long
Close your eyes
And give me your hand
As this could be the last year
Kiss me and hug me then
'cause I wanna be with you
I said
'cause I wanna be with you
Till the end
