You say stay and never leave  
You say meant for ever  
I could believe you but I don't  
You say we're almost all alone together  
All alone  
You say  
You say you will  
I know you won't

I was wrong  
I was wrong to ever doubt  
I can get along without  
I can love my fellow man  
But I'm damned if I'll love yours

In a bar that's always closing  
In a world where people shout  
I don't wanna talk this over  
I don't wanna talk it out  
I was quite impressed until I hit the floor  
But isn't that what friends are for?  
Pain looks great on other people  
That's what they're for

I was wrong  
I was wrong to ever doubt  
I can get along without  
I can love my fellow man  
But I'm damned if I'll love yours
