Go Ramen (x8)
Go fingers off you touch the senpai
Four hand seals a kekkei genkai
Mess with me, i'll have to cook you
with something called fuck off no jutsu
Feel just like I won the lotto
Respect to Masashi Kishimoto
Trust me, this is all day
Just halla what's up at the cosplay
Look inside and you will find him
A hundred million kage bunshin
Still the Shinobis trying to harm him
One for the ra ra ra ra ramen

Orochimaru is a dick you see
He took my Sakura-chan from me
So if you think I can't go fetch her
I just don my forehead protector

~Music interlude~

Hunt in pairs for the damn bijuu
Then he gets trapped in my genjutsu
Black and pitiful like see through
Eddie Rath got a Golden Mangyeko
Ichigo kind of scares the rhymer
His hair looks like bear's vagina
Sent him a Death Note caused a seizure
Don't make me step into my eva
A hundred million kage bushin
Still the Shinobis trying to harm him

One for the ra ra ra ra ramen (x2)

Manga Anime for all my Bitches
Love and respect to living stitches
I'm not leaving, that's right
I'm going to be right by your side
