So busy it's too much to take
Can't fight this want to run away
These streets are just too crowded
And the traffic it's too loud
It's making me wish for a better day
Not steady, too much is fake
Got to shake it off an sail away
This city makes you crazy
Only my guitar to save me
Take me to a different time and place

Let's get away from here
Pack all our bags and disappear
I know I'm just not ready
In a world so hot and heavy
So let's get away from here
Woah, woah, woah

Seems wrong to be hiding from the sun
Those black high heels don't look that fun
I know I'm not the only one who wants to grab my car
keys
Head off to a place where I can run

Let's get away from here
Pack all our bags and disappear
I know I'm just not ready
In a world so hot and heavy
So let's get away from here
Woah, woah, woah

Sometimes I just want to break out
Re-evaluate my life now
I'm just too young to not have fun

Let's get away from here
Pack all our bags and disappear
I know I'm just not ready
In a world so hot and heavy
So let's get away from here
Woah, woah, woah

I'm just too young to not have fun
