

Of The Son "Burn The Inside"

Visit "[Burn The Inside](#)" on MotoLyrics.com

You breathe, I feel you inside
My mind it's burning
There's no time
And now it's moving you feel its life
The fire burning deep inside

Burn the inside
Come into my life
Be all that I need
Take my pain away

And now you feel it burning through
Your mind is changing, life is too
Life is too
Reflect the fire in all you do
And show the world what is true

I'm burning up on the inside
I want to break out of my mind
I want to shed what I carry
I lay my burdens down for you
