Running through a waterfall  
Watch the waves they catch them all  
I don't want to be alone  
I don't want to be stoned

Be alone  
Watch it all away with you  
Be alone  
Watch it all away with you

Running through a waterfall  
Watch the waves they catch them all  
I don't want to be alone  
I don't want to be stoned

Come and run away with me  
We can be a destiny  
All our plans are all your say  
All your whispers love is great

Be alone  
Watch it all away with you

Watch it all away with you  
Watch it all away with you

I don't wanna be alone  
I don't wanna be alone
