Stuck in a dream  
Nothing to hide  
It's all what it needs

In what you do  
In what you say  
All is all

You've got a heart of gold  
Yeah, you've got a heart of gold  
Gold

Where are we now with everything to say?  
Pulling down to fade away  
Lost in a dream  
It's all what it needs

In what you do  
In what you say  
All is all

You've got a heart of gold  
Yeah, you've got a heart of gold  
Gold

You've got a heart  
It's all what it needs  
Yeah, you've got a heart
