

54-40**"And So It Begins"**

Visit "[And So It Begins](#)" on MotoLyrics.com

Pick up yourself get motivated
Your dying inside your
Beaten and withered away
And all I know becomes your inspiration
Well take three steps forward

The best things in life are free my friend
Why don't you tell me what's better than breathing
Well just look around you
Shut your mouth don't make a sound you
Listen to my voice let it take you home

Pick up yourself it's not complicated
There's more to this than bringing other people down
And all I am becomes your inspiration
Well take three steps forward
And put one fist up in the air

The best things in life are free my friend
Why don't you tell me what's better than breathing
Well just look around you
Shut your mouth don't make a sound you
Listen to my voice and let it take you home
(and let it take you home)
