

54-40 "Castles"

Visit "[Castles](#)" on MotoLyrics.com

Ain't gonna tell no stories, I ain't gonna tell no lies
To simplify things I just feel alright
I once was my own worst enemy
But now I learned to set myself and my enemies free

I'm gonna celebrate the castles coming down around
me
The walls are at my feet
Hop on the side G and jump into the scene around me

Been to the east and out to the west
Down to the river been cursed and blessed
Now if there's trouble ahead, just face the music and
dance 'cause
Distance is nothing from the first step to the last

Baby, don't asking not asking much
I just want you to show what you got
Let it go somewhat

Some people try to fool you, do all kinds of things to
you
That don't represent my school which says
Put yourself in my shoes, I'll be in yours
How you like me now, how you like my chords
