Not you, not me, it's a system  
Make her bleed

Charlemagne was a member  
Of the game, she surrendered

Don't listen to that, don't listen to that  
Don't listen to that noise

Here today, gone is tomorrow  
Never date the witches sorrow

Don't listen to that, don't listen to that  
Don't listen to that noise

She never smiles, selling matches  
The fire catches, the witches burn

Don't listen to that, don't listen to that  
Don't listen to that noise
