"Last People On Earth"

We'll be the last people on earth
Because we don't have a plan
Last people on earth
Buried deep in the sand

And all over creation
From the land to the sky to the sea
Coming of a celebration
For the end of a dynasty

We'll be the last people on earth
Because we don't understand
Last people on earth
Buried deep in the sand

Last people on earth
Last people on earth
Less people on earth
Less people on earth
"And That's the end of our album, we hope you liked it"
-Brad Merritt
