I've seen it before same way  
Can't understand it what you give away  
And I search around what you're looking for  
Get a walk get a walk get a walk got to stop  
The trouble

Nice to luv you baby  
With all my heart and soul  
Nice to luv you baby  
No matter where I go

Bout the time before when you were messed up  
And I turn the lights out and I search about  
Yeah it was in the shower that I found a flower  
Hip Hop doo wop got to rock this difference in

Nice to luv you baby  
With all my heart and soul  
Nice to luv you baby  
No matter where I go

Fire in the night  
Sky is bright  
And there's no fear  
What a feelin here

Nice to luv you baby  
With all my heart and soul  
Nice to luv you baby  
No matter where I go
