Love song on the radio, on the radio has got balls
Kiss me, kiss me, baby, kiss me, baby, before I fall

Can't think why you move so slow
You stop me when I want to go
Leave me in peace or leave me now
Don't you come back, not now

Time has come, red is blue
You for me, me for you
Loss of pay, awash of gray
What was love is now a grave

DJ on the radio, on the radio has got balls
He plays, only one song, only one song all day long

I don't want a girl in short wave
I don't want a girl in mono
I just want a girl on the radio

Kiss me, kiss me, kiss me, baby, don't say, no
I'm too lazy, don't say stop, we should go, go, go, go,
go

Go, go, go
