"Take My Hand"

I'm thinking in circles
Don't know where to turn
All messed up are my signals
Go nothing left to burn
Take my hand
Take my hand
Take my hand
If you hold me I won't ever let you fall down
If I hold you I have to face that wall not now
I need you you're my witness
To all I have seen
What I'm going to do with this is
Set people free ("Come on now")
Take my hand
Take my hand
Take my hand
And we'll go running
We'll go running
We'll go running running away
I'm gonna run away take my hand
