"We Are, We Pretend"

Visit "[We Are, We Pretend](#)" on MotoLyrics.com

Everything that you say
Everything that you do
My faults are many
Yours are only two
One murder makes a villain
A million make a hero
Like a rotten fish by moonlight
We shine we stink
Get out of the floating day
Boy
Wish I was in the rhythm you do
Wrapped up like a spool
Your love is a rack and screw
By the shadow of your lips
Get out of the floating day
Up high above the sound above the ground
Many ways you will change
Many ways you will die
I don't believe you'll go away
Get out of the floating day
Up high above the sound above the ground
Get out of the floating day
Boy
We are what we pretend
Get out of the floating day
Up high above the sound above the ground
Get out of the floating day
Up high above the sound above the ground
