The only thing I like about you
Is the reflection of myself as I look into your eyes
As I look into your eyes

The only thing I like about you
Is the reflection of myself as I look into your eyes
It's hard to tell you I don't love you
When I see the way we look as I look into your

Eyes are shaking
The worlds ours for the taking
So take me here I am
I'll be waiting
You'll be faded
Take me here I am

So now that my hearts wide open soon
I'll close her eyes and tell her that this is the end
And now that I'm on my own
I'll see
I've wasted, faced all those promises
I couldn't keep

You thought time would stand still without you
But the world still turns and we're both
Better off this way
It's hard to tell you I don't need you
When I see the way we look as I look into new

Eyes are shaking
The worlds ours for the taking
So take me here I am
I'll be waiting
You'll be faded
Take me here I am

So now that my hearts wide open soon
I'll close her eyes and tell her that this is the end
And now that I'm on my own
I'll see
I've wasted, faced all those promises

I couldn't keep

So take these times
And never let go my friend
So take these times and never let go
Don't you ever let me go

So now that my hearts wide open soon
I'll close her eyes and tell her that this is the end
And now that I'm on my own
I'll see
I've wasted, faced all those promises
I couldn't keep
Soon I'll know
Then I'll waste it, I'll face
All those promises I couldn't keep
