Hey Mister
Hey baby, I've got something to tell you
You better listen to this song

Come on and set me on fire
Like you only can
I wanna go where only you know.
And do for you whatever helps you bro.

You know how I feel inside.
Or do you really care.
I think tonight you're gonna make it all right.
I need my lovely baby by my side

I can't believe this is happening.
Go through it all what's the point of it.

Come on and stop what you thinking
Come on let's do the thing
You're the air that I breathe
And you know that I need it.

I like the way you play
I dig the things that you say
Don't ever leave me you're forever

I like the way you play
I dig the things that you say
I know we'll always be together.

Don't leave me this way.

You never open your eyes
I tried to make you see
There's nothing I can do what do you think? What
happened?
Without you baby it can never be

I can't believe this is happening.
Go through it all what's the point of it

Come on and stop what you thinking

Come on let's do the thing
You're the air that I breathe
And you know that I need it.

I like the way you play
I dig the things that you say
Don't ever leave me you're forever

I like the way you play
I dig the things that you say
I know we'll always be together

I like the way you play
I dig the things that you say
Don't ever leave me you're forever

I like the way you play
I dig the things that you say
I know we'll always be together

Don't leave me this way
