

Alexia "Every Day"

Visit "[Every Day](#)" on MotoLyrics.com

This is not a love song
This song is not for you

This is not a love song

Can't you hear me singing it for you
I thought that i belonged to
No-one else but you

The nights are sad and lonely
You don't think about me neither i, you
Nothing lasts forever
It's all i had from you

Every day
Every night with you
Here by my side
I don't wanna be with you

Now you treat me friendly
But I'll never change my point of view
Never get back together
Nothing else to do

Every day

This is not a love song
This song is not for you

This is not a love song
