Number one, close your eyes, everything is alright  
Number two, I need you, move your body tonight  
Number three, Love is free, come on get on your feet  
Come on, come on, come on, come on, come on, come on,  
come on, come on baby

Giddy up, giddy up  
Come on, come on, come easy  
Giddy up, giddy up baby  
I rock your body now

Baby baby come on  
Rolling to this song  
Tonight I wanna dance with you

You can't be there alone  
Come into my world  
And show me your intentions my boy  
(I know you want it)

I feel the beat  
Rock into my feet  
Stand up it's getting sweet and right

You better listen to me  
Listen to my song  
This cool and catchy lullaby

Come on girl, relight my fire  
One, two, three, four, five  
Baby baby come on  
Moving to this song  
Tonight we're gonna make it right

If you're falling in love  
Better show me now  
This time you got to make up your mind  
(You know I want it)

I wanna be  
In your fantasy  
Your dream your only sweet desire

And if you know what I mean  
You can right the wrongs  
Tonight I will be by your side

Come on girl, relight my fire  
One, two, three, four, five

Number one, close your eyes, everything is alright  
Number two, I need you, move your body tonight  
Number three, Love is free, come on get on your feet  
Come on, come on, come on, come on, come on, come  
on, come on baby

I rock your body now
