One day you came and made me blue
Nobody close to me just you
You have the power in your eyes
Me and you

Today you left me far behind
How could I live without you, tell me now?
Forever waiting for your love
Me and you

You got the sun, let it shine on me
Can't get away, don't forget my tears
This is the way I feel good
Give me a reason, I'll come back to you

Fire still burning inside of me
Feel so alone with my shattered dream
I try so hard stronger and free
Why don't you want to recall what could be?
Me and you

Lost and afraid, you're a light for me
Open my heart, wash away my fears
If I am scared you'll take me to
A brighter place where I can run to you

If you could only believe in me
There's nothing else to do, can't you see?
If you feel the way I live for two
We could be in heaven, our dream will come true
Me and you

One day you came and made me blue
Nobody close to me just you
You have the power in your eyes
Me and you

Today you left me far behind
How could I live without you tell me now?
Forever waiting for your love
Me and you

Ooh, baby, baby
It has to be love spinning me
Round and round
Me and you

Ooh, baby, baby
It has to be love, baby
Me and you

Ooh, baby, baby
It has to be love spinning me
Round and round
Me and you

Ooh, baby, baby
It has to be love baby
Me and you

Me and you
