Best friends, you are my f**king best friends
Yo honestly, this is the best night ever
And this song, I'm really feeling this song
Yo honestly, the f**king best night ever

This is the best night ever
The f**king best night ever

I can't remember all the sh*t we said last night, last night
We probably won't remember what we did last night, last night

I'd rather be right here with you than anyone else in the world
I'd rather be right here with you than anyone else in the world

Best friends, you are my f**king best friends
Yo honestly, this is the best night ever
And this song, I'm really feeling this song
Yo honestly, the f**king best night ever

Best friends, you are my f**king best friends
Yo honestly, this is the best night ever
And this song, I'm really feeling this song
Yo honestly, the f**king best night ever

I can't remember all the sh*t we said last night, last night
We probably won't remember what we did last night
but one thing I'll never forgive

I'd rather be right here with you than anyone else in the world
I'd rather be right here with you than anyone else in the world

Best friends, you are my f**king best friends
Yo honestly, this is the best night ever
And this song, I'm really feeling this song
Yo honestly, the f**king best night ever

Best friends, you are my f**king best friends

Yo honestly, this is the best night ever
And this song, I'm really feeling this song
Yo honestly, the f**king best night ever

Uhh, are we gonna get sued for this?
(Oohhhhh, Oohhhhh, Oohhhhh, Oohhhhh)

Best friends

You are my best friends

You are my best friends

You are my best friends

You are my best friends

You are my best, best, best, best, best, best, best, best, best, best friends

Best friends, you are my f**king best friends

Best friends, you are my f**king best friends

Yo honestly, this is the best night ever

And this song, I'm really feeling this song

Yo honestly, the f**king best night ever

The f**king best night ever

The f**king best night eve
