Im pickin apart things to wrap is to sardines
Shootin at the radio, megatron and starscream
Stabbin niggas brains with sharp things
Im a monster, dragon lungs and sharp fangs
Bingin on beats and puking like bulimics
Heres a picture of my brain tell me have you niggas

They hear us knockin but wont let us in
Hey tell them bitches Jarrens back for revenge
And get a load of me now

They just shit on me piss on me spit on my grave
Laugh behind my back but in my face get a load of me
now

Yes, Lifes great, fuck yours, your whole clique a bunch
of lames, up yours
When i was 15 i told my mom fuck chores
I rather run the streets smoke weed and hump whores
Chuggin pbrs, screw bud light beer
Im high as the rocket pack in back of buzz lightyear
I kill a rapper, puke get squeemish and run
Whats been hot to the man that exstinguished the sun

I got a date with yo mom and im plannin to cum

I just left the studio and i planted a bomb
Pass me the anal lube and hand me that gun
Eat shit and die, thats what i tell a dork
so what the fucks a maybach to a nigga that can
teleport

They hear us knockin but wont let us in
Hey tell them bitches Jarrens back for revenge
And get a load of me now

They just shit on me piss on me spit on my grave
Laugh behind my back but in my face get a load of me
now
