Driftingâ€¦..Dreamingâ€¦..Flowingâ€¦..Feelingâ€¦.

Silver circles of love,  
Sapphire skies up above;  
A white cloudy sea , gently carries you to me.  
The golden sun, two clouds melting as oneâ€¦..  
I love you

A painting of you, reflections of deep blue,  
Colour my dreams  
Beautiful White Nights

In the calm evening sky,  
Summer light before my eyes,  
Heaven sent, Heaven blessed-Angels  
Catch the light in my hands, in a childâ€™s  
wonderland  
Sailing, searching endlesslyâ€¦..Eternity

Between earth and sky, I touch paradise,  
Freedom at last  
Memories floating by, beyond the clouds,  
The distant past  
Whispering White Nights

Driftingâ€¦..Dreamingâ€¦..  
I love you.
