Fresh to death, looking real good  
Now I'm all in the light  
Yeah I'm gona do it up tonight  
Going to celebrate I'm feeling right, Oh  
Keep it movin if you want to bring me down  
Say HI to those haters when they come around  
And let them know that's It's your show and you don't  
plan on letting up

Grinding, Your boy's grinding  
Shining, now I'm shining  
Got It together, Got It together  
Now there's no where to go but  
Never slow down, Never slow down  
Finally off the ground eh  
Now's there's no where to go but up cus

When you hustle hard, you get money  
Reach for the stars, and keep going  
If you want to feel  
Go o o ood G o o ood  
You gotta work hard to get money  
When you hustle hard, you get money  
Reach for the stars, and keep going  
If you want to feel  
Go o o ood G o o ood

Watch me move your boy's shaking out  
Now all eyes on me  
No it wasn't easy in the beginning  
Went through allot of shit for me to fly  
So I kept it moving, would let it bring me down  
Sad what up to those haters when they came around]  
I let them know that's it's my show and I don't plan on  
letting up

Grinding, Your boy's grinding  
Shining, now I'm shining  
Got It together, Got It together  
Now there's no where to go but up  
Never slow down, Never slow down  
Finally off the ground eh

Now's there's no where to go but up cus

When you hustle hard, you get money  
Reach for the stars, and keep going  
If you want to feel  
Go o o ood G o o ood

When you hustle hard, you get money  
Reach for the stars, and keep going  
If you want to feel
