One More Kiss

Hey baby you've been gone away for so long now
I don't think I've been alright I need you here somehow
I still think of you most times and wonder
Do you miss me too?
Sometimes I just fall to the ground
In life dreams Don't always come true
Feels like we're stealing moments from another life
Just to spend a little more time
In my arms you fit just right
Hey baby, we're meant for each other
How do you explain this?
In my arms you would stay for awhile and plead for
One More Kiss
I know that we're meant for each other
How do you explain this
Won't you stay with me a little while I just
Need One More Kiss
One more kiss from you
Hey baby you're the drug that keeps me alive
A warm and fuzzy feeling inside
When I looked into your eyes
You could stay with me
Stay as long as you need
We could laugh and play
We could run away
Repeat Pre chorus and chorus out
