I was a child, I was born in the lion's mouth
In the belly of a dragon's how I found out
I look for kisses up in the sky
Such a long way, that's what they'll say

Ooh, ooh, be the one, be the one
Ooh ooh
Ooh, ooh, be the one, be the one
Ooh ooh

What's left behind, keep what's yours, take what's mine
I've been waiting for the day, just the chance to get
away
I look for wishes up in the sky
Such a long, that's what they'll say

Ooh, ooh be the one, be the one
Ooh, ooh
Ooh, ooh be the one, be the one,
Ooh, ooh

Over the sun, he's taking another one
Over the sun, he's taking another one
Over the sun, he's taking another one
Over the sun, he's taking another one
Another one

He's taking another one
He's taking another one

I was a child, I was born in the lion's mouth
In the belly of a dragon's how I found out.
