Beautiful boy, sisters and mother and father adore  
Wishing you had the day  
To sit by the fire and run to the shore  
Now there shines a light  
Bigger and brighter than ever before  
He takes up the sky  
Now there is beauty and love wild for miles

Michael, Michael  
We do sing  
Michael, Michael  
We do sing

Fall as you may  
Oh we get carried away  
As long as we stay  
Together, your hopeful hearts will be okay

Michael, Michael  
We do sing  
Michael, Michael  
We do sing

There goes a bird, wings full of memories  
It's likeness unheard, there goes baby over the sea  
Flying through the gold rush, hair like the leaves  
It's likeness unheard, there goes baby over the sea  
There goes baby over sea

Michael, Michael  
We do sing  
Michael, Michael  
We do sing  
Hallelujah...
