I'm bored of quality  
I'm tired of keeping diciplined  
I'm sweltering  
The heat is too much for me  
Producing this shit  
Is pure vanity

Oh, oh, oh~

I've got a frostbite in my frontal lobe  
I've got no empathy  
No sensitivity  
Please unwrap me from this cotton wool -  
I won't be bullet proof  
When you just smile  
Smile  
When you smile  
Ooo~  
When you~

You're bored of quality  
You're tired of  
Keeping diciplined  
You're sweltering  
The heat is perfect for me  
Making this wark is not vanity  
Ohh~

You've got a frostbite in your frontal lobe  
But I've got too much empathy  
So much sensitivity  
Please, please, wrap me in some cotton wool -  
I'm not bullet proof  
When you just smile  
Smile  
When you smile

When you smile  
Smile
