If I jump, will it echo?  
From an infinite space  
Does it light, bring the thunder  
Run away you're still at risk  
Be my sins, I'm your sorrow  
If I shout, no earth will shake

We're running away  
Pushing everything over the edge  
We're running away  
If I find out who's gonna catch  
We're running away  
Pushing everything over the edge  
We're running away  
(Falling over)

Watching it all over my shoulders  
Until the masquerades over  
We're not gonna wait here  
Not gonna get left out  
No one can tell you how  
You just speak out now  
Watching it all over my shoulders  
Until the masquerades over  
We're not gonna wait here  
Not gonna get left out  
No one can tell you how  
You just speak out now

It is true, cause it's spoken  
And there's no way to bring it back  
Time is a thief, trying to trick you  
It will happily tell you lies  
Memories, whisper slow  
Hold back, or let it go go

We're running away

Pushing everything over the edge  
We're running away  
If I find out who's gonna catch  
We're running away

Pushing everything over the edge  
We're running away  
(Falling over)

Watching it all over my shoulders  
Until the masquerades over  
We're not gonna wait here  
Not gonna get left out  
No one can tell you how  
You just speak out now  
Watching it all over my shoulders  
Until the masquerades over  
We're not gonna wait here  
Not gonna get left out  
No one can tell you how  
You just speak out now

When there's a win, there's a sacrifice  
When there's a loss, there's a bright light  
No stones or sticks kick us on the high  
If there's a law, there's a way to fly

Watching it all over my shoulders  
Until the masquerades over  
We're not gonna wait here  
Not gonna get left out  
No one can tell you how  
You just speak out now  
Watching it all over my shoulders  
Until the masquerades over  
We're not gonna wait here  
Not gonna get left out  
No one can tell you how  
You just speak out now
