Like a long and distant memory  
Fading in my mind  
I forgot all there's about you  
Never looking behind  
Now all there is left for me to see  
The pain in your eyes staring at me  
CHORUS (4x)  
Silent tears  
Running from my eyes  
Too many desperate lies  
Have broken my heart  
Seeking for a new thrill  
To spend my days  
I tried to kill all my dreams  
In oh so many ways  
I know that you sometimes think of me  
But I've moved on can't you let me be  
CHORUS (2x)  
Like a long and distant memory  
Fading in my mind  
I forgot all there's about you  
Never looking behind  
Now all there is left for me to see  
The pain in your eyes staring at me  
You no longer play the leading part  
The game is over you hold no more cards  
CHORUS (2x)
