[VERSE 1]

It's get-ting late, ready to hit the floor
Black la-shes on, we're walking out the door.
Steppin' right in, this is where I belong
The lights-the bass, how could this shit be wrong?

[PRE-CHORUS]

When I'm out I know what the nights about
Feelin' good and living inside the beat
Forget about the worries within your heart
Time to dance and just let the music move you.

(Repeat)

[CHORUS]

Don't be scared now - feelin' that beat
Wontcha come a little closer now to me
Wanna let go - lose control,
I'm werk-a-werk-a-werk- Werkin My Body!
(Repeat)

Won't check-my phone, don't bother me tonight
