Chorus

Donâ€™t need vitamin C cuz youâ€™re my therapy
Donâ€™t need vitamin D cuz youâ€™re the sun that
shines on me
Donâ€™t need vitamin A to get me through the day
All I need is vitamin U

Some need a magic pill,
to get it going and climb that hill
Some rely on that health stuff,
all I need is your sweet touch.
One small dose of you, will always be more than
enough.

Chorus

Some hit the gym everyday,
it helps them keep their bodies in shape.
They lift, swim, and run about.
But chasing after you is my work out.
Love it when I catch you, never seems to tire me out.

Chorus (repeat)

I said all I need is Vitamin U

Aww come on baby
Give me a little shot of that vitamin you
I feel a little run down tonight
But it will be alright
