It Took Some Courage

It Took Some Courage
It Took a Strong Will
Probably more then I ever will
Secrets are sometimes hard to let go

It Took some Strength
Stronger than I ever be
Lived in fear all of my life
And I guess I always, I always will

Human nature exploits are weaknesses
Many times by people we love and trust
Sometimes with good or bad intentions

It's just the nature of the beast

Everyone goes through battles
The weak get weaker
The strong just get stronger

It's just the nature of the beast
