Living a lie

And it's what you're getting married to

Wish it could be another way

Gratitude grabs me by the hand

Makes me understand

I'm glad I am where I am

Death to the attitude

Stars in my eyes

I found something you can't comprehend

You're all that I don't wanna be

You're only gonna fear

What you're never gonna understand

I'm glad I am who I am

Hell yeah

Death to the attitude

Just know that I'm watching you.
