

Oh No Not Stereo "Dying To Know"

if i stick around
whenever you let me down
i'll learn nothing from you
you followed the trail
you ride on the coattails
of a talented soul

oooh, i'm dying to know

if all went as planned
we'd never be jealous
we'd just be content with what we have
you followed your nose
let you here to the middle
the lonliest part where no one knows
oooh, i'm dying to know

last night, baby
under the moonlight
we set our sails for tomorrow
capsized, baby
it's very unlucky
only the strongest will survive

i'm finding it hard
but i'm gonna get by
i'm finding it hard
but i'm gonna get by
