By the way we love you California  
And with your smile you really get me all the way  
Well if there's one more thing I love  
Well that gets me really gets me  
in the sun you really get me all the way

The time is coming up  
when did you all get so down  
when I've been up to this town?  
The very very last one  
when are you ever gonna get around  
and I've been back, ooh...

By the way we love you California  
And with your smile you really get me all the way  
Well if there's one more thing I love  
Well that gets me really gets me  
in the sun you really get me all the way  
Keep me on this running train  
when all our eyes are open  
we'd survived  
we always get by  
looking at the ocean view  
all the cities teach you how to  
find a way to give me to my home  
would it break your heart  
suddenly you'll fill the eyes  
until you just survived  
you always get by

By the way, ooh.
