I've been feelin'
Really feelin' while I'm wearing this frown
I gotta get up, get my life into gear
Gonna make my Doing come from Being
Rid myself of my fear
And everything is gonna turn out real clear

I know I've left my mind
Now I'm way inside
I'm gonna take a trip right through the twilight
Zone
Gonna find what I find, call life my own

CHORUS

DO whatever you do (open up your mind)
Something's in it for you (don't waste any time)
Do whatever you do, it's right inside you
Be what you choose to be (you can do it like me)
It'll set your soul free (before you DO, BE!)
Do whatever you do, it's right inside you

Now I'm creating, yeah, creating
And that frown's upside down
Since I decided that I'd better come round
My joy's contagious, getting outrageous
Choosing just what I please
Ain't gonna hurt no one but I ain't no drone

Now I finally see, I AM what I BE
You won't have fun unless you do what's in
your soul
No more bringin' me down, I'm on a roll!

REPEAT CHORUS
