Love, truth, hope  
Guidance, wisdom  
Tolerance, trust, "the way"  
Compromise, compassion, caring  
Romance, respect, we play  
War ends today

This is all so very simple

#### CHORUS

Love Alone  
Is all that these words mean  
No meaning in between, just Love Alone  
Love Alone  
The pattern's clear to see  
If we could all just be  
These words of hope  
And not just cope  
There'd be a lot more love  
Love Alone

Freedom, song, happiness, laughter  
Friendship, the power to just BE  
Thankfulness, inner peace, grow, giving  
We, not I, the day  
It never fades away

And it's all so very simple

#### REPEAT CHORUS

Earth and sky reflect the beauty  
Of what's inside you and me  
This all works so perfectly  
Sometimes it's hard to see we're all it  
It's US, love's YOU, love's ME

#### REPEAT CHORUS
