"Nothing To Cry About"

There's nothing to cry about tonight
All your thoughts are brave
But they make you tired
It's only us and the world is small and new
Like I don't know anything
But how I'm in love with you
I'll hold you when the nights get long
And hold you when the times get tough
I'll love you when you've had too much
And hold you when you can't get enough

Baby close your eyes
Cause we are in the angles keep
Push your worries all aside
And let me rock you back to sleep
There's nothing to cry about tonight
It's not your job to know if everyone's alright
Let me tell you how perfect you are to me
And we're all that matters now as far as I can see
