Ain't no fighter I don't act real tough  
I smooth things over if the situation's rough  
I don't look for trouble I keep myself  
(But) if trouble comes your way I'll be there to help

#### CHORUS

When push comes to love, you can count on me  
When push comes to love, you can count on me

I don't let pressures get the best of me  
It never pays to worry Â–bout powers that be  
You could say I-m laid back, I'll take my time  
(But) I'll move like lightning if you're ever in a blind

#### REPEAT CHORUS

I'll never abandon you  
Or give all your secrets away  
I'll see what I promise you through  
I want you to realize, for you I wouldn't compromise  
It it comes down to choosing from me, I won't ever let  
you down

I rarely gamble if there's another way out  
I'll take the road with the least amount of doubt  
I don't take a risk if there's a sure thing  
(But) for you I'd roll the dice and risk everything

#### REPEAT CHORUS
