Tell the truth
Keep it straight up, real and pure
Feels so good
We should all do it some more
Yeah, it's hard at first, that won't last
And when it's past you won't ask why any more

CHORUS

You gotta tell the truth
Start right away
Lyin' a way out no more
It turns round and bites you, for sure
Just tell the truth
Do it today
Try it, you might do some more
And soon you won't lie any more

Live your truth
And watch your life change day to day
You'll be sure
That you've found a better way
When the lies surround you
Have some faith; the truth'll shine on through

REPEAT CHORUS

Inside us we know what's true
Lies die, then they're gone
When life's lived from inside out
The truth finally won

REPEAT CHORUS
