Talk to you for a second

[Chorus]

It's like it's never enough  
And we don't even know how  
This is too hard to realize  
That you're making it hard for you and I  
Are we even in love?  
Or should I tell you a lie?  
Cause you're making it hard for you and I  
Girl you're making it hard for you and I  
We can't go much longer  
Your fears are taking over  
This won't last for long  
So why should I hold on?  
Making strange decisions  
I can't fight this feeling  
I hold back, be strong  
Pray down, I move on  
Nothing ever last forever, no  
What ever goes up comes down, that's right  
Will we ever be together? I don't know  
Never say never

Ah, remember when you used to text me  
Saying you was thinking of me  
Kept it friends for a while  
Then along it came the fucking  
From new states red bottoms, Gucci scars for the  
styling  
Quick reminders, menu at the... I was browsing  
She knew a nigga made a way from the public  
housings  
Nowadays I play so hard I throw a couple talent  
Was working for the both of us so the money piling  
Forfeited the whole shit, and threw the talent  
Always thought the common thing wasn't true  
Like if you did something same shit will come back to  
you  
Not saying that it's wrong, and all the legal work  
Calling off, traveling around the hunned down for a

calling card  
Prolly suck some real... for a real person  
Knew a... shooting me, I can see you hurting  
Rewinding back in the time, you feeling stuck  
And it sucks, that was rough but

[Chorus]

It's like it's never enough  
And we don't even know how  
This is too hard to realize  
That you're making it hard for you and I  
Are we even in love?  
Or should I tell you a lie?  
Cause you're making it hard for you and I  
Girl you're making it hard for you and I  
We can't go much longer  
Your fears are taking over  
This won't last for long  
So why should I hold on?  
Making strange decisions  
I can't fight this feeling  
I hold back, be strong  
Pray down, I move on  
Nothing ever last forever, no  
What ever goes up comes down, that's right  
Will we ever be together? I don't know  
Never say never

I told her never say it, never rush  
We never waited, wish we never dated  
Plotting on, find the replacements  
I was hurt regarding I was so young  
Trapped in amazement  
Feeling in places, even though  
We was different natures  
Beauty came from afar, seen it from miles away  
Love was saking inside so was the alize  
I break when I think on things I remember  
She born in September but had a heard cold as  
December  
Realizing I was in the wrong still I had to stay strong  
Reaching for you in the morn forgot I told you to be  
gone  
Had a text later on so you had a better day  
Your response "yeh it's cool, I think it's best we stay  
away"  
Guess the space was beginning to feel  
And our love wasn't able to build  
Shit I'm just keeping it real  
Guess the insecure and arguments was fucking it up  
Along with the trust, I'm knowing it but

[Chorus]

It's like it's never enough  
And we don't even know how  
This is too hard to realize  
That you're making it hard for you and I  
Are we even in love?  
Or should I tell you a lie?  
Cause you're making it hard for you and I  
Girl you're making it hard for you and I  
We can't go much longer  
Your fears are taking over  
This won't last for long  
So why should I hold on?  
Making strange decisions  
I can't fight this feeling  
I hold back, be strong  
Pray down, I move on  
Nothing ever last forever, no  
What ever goes up comes down, that's right  
Will we ever be together? I don't know  
Never say never.
