Dream life, outcries, standby, allies
Poolside, child-like, downside, goodbyes
Sympathetic tones don't match a sympathetic lie

So darling don't leave, fix me
You're my only entrance
I'm just looking an exit from my real life
Me time is my saving grace
While I'm just looking for your face amongst the

Deadbeats, back streets, stories, tell me
Child brides, pigsties, thick ties, unwise
Don't just hold each other back,
I'm cleaning up my path

So darling don't leave, fix me
You're my only entrance
I'm just looking an exit from my real life, meantime
It's my saving grace
While I'm just looking for your face inside the crowd

I'm so sorry, I apologize in advance
We were never friends, I didn't mean to hurt you yet again
I don't mean my cruelty
It's just the poetry you were looking for

So darling don't leave, save me
You're my only exit
I'm just looking an entrance to my real life meantime
It's my saving grace
While I'm just looking for your face inside the crowd
