Sick i've lit the bridge on fire exposed the nerves will
twitch
Feed the needy x desire poke it with a stick
I need assertion devils in my eye won't let up any
motion
I need a surgeon devils inside won't cut me any slack
Who cares about you/i thought i did
Who cares about you
Fingers twitch and blisters stalk her removes itself
from it
Dream the greedy motivators sleep it off again
I need assertion devils in my eye won't let up any
motion
I need a surgeon devils inside won't cut me any slack
Distant wreaths surreal retired in bed forever sleeps
Secrets feed the next desire
Desires not to be
