When it's getting through  
I feel as if the time is coming around  
I am finally going through this time in my life  
Sure let me know i feel as if the time is coming around  
I am finally going through my great disaster

Got divorced with the way i was and i tried to get away  
So will you take me out of it for a while i'm a lusid  
dreamer  
Will you take me out for a while knock me out cold  
Will you take me out for a while im a lusid dreamer  
Take me out in one fell swoop knock me out cold  
Life is really easy when taken down apart  
From up around the center a spiral blown heart  
To give it some relation to give in to belief  
Freedom to the limit the limits set you free
