It's JJ Money baby
Ha ha
Owwwwwww

I said all I dream is
I said all I dream is
Money cars clothes hoes everybody knows
The money gone change me
Damn right that money gone change me
That money gone change me
Cause this is what I do
This is what I do
So all of you don't know
When I transform in my groove
I always shut it down
This way, that way, either way
You know I shut it down

Big lights, take one
Yeah the camera's on me
This year this time
Lord I pray for homies
El Nino I cause weather change
Ninety days a brainstorming, heavy Rain
I'm the man of the hour
Twelve PM
I'm saving every dollar
I'm Mr. Scrooge again
I aint Chester Cheetah
When I am chasing cheddar
That cat aint never catch it
I'm in another bracket, yeah
Top five better mention me
Yea, pull my file boy I'm legendary
No myths or fairies
That I'm shitless scary
And when that money comes
All of y'all run for cover and get scared
Like when Jimmy fucked
And broke the rubber
It's the rebirth, you can't deny

Truth hurts
Cold days dark nights
I know you live bitter
And can't stand the fact I bounced back

I said all I dream is
I said all I dream is
Money cars clothes hoes everybody knows
The money gone change me
Damn right that money gone change me
That money gone change me
Cause this is what I do
This is what I do
So all of you don't know
When I transform in my groove
I always shut it down
This way, that way, either way
You know I shut it down

Money on my mind all time
Thinking how much I could save
From the grind
That's true
That money sees my problem
Solve everything
Why my saying goes
Money over everything
I'm big bossing
Scarface, Al Pacino
New Jack I brought back
Call me Nino
Now ice game burr bitter, sub zero
It's funny how I made money
Change everything
The way I look
The way I talk
Where I'm travelling
Where I sleep
The way I eat
Extravagant
Shout out to haters
I swear y'all deserve it
Y'all made my life Kodak Picture Perfect
Times you wrote me off
Hoping I would fall,
Now everyday I ball
Middle finger to you all
Ha ha
Yeah get mad baby
Yeah get mad that I bounced back

I said all I dream is
I said all I dream is
Money cars clothes hoes everybody knows
The money gone change me
Damn right that money gone change me
That money gone change me
Cause this is what I do
This is what I do
So all of you don't know
When I transform in my groove
I always shut it down
This way, that way, either way
You know I shut it down
