Wooo
Yeah
J Jon
Ooooooh
Kidstar

Every day I think of you (Yeah)
I just think in my mind
Can you be that special one
I'm stuck on you

The date, the time, the seasons, they change (I'm stuck
on you)
My love for you remains the same (I'm stuck on you)
I'm stuck, yeah baby I'm stuck (I'm stuck on you)

I'm stuck
My friends say im obsessed with you
I get butterflies every time I'm next to you
And when I promise this my last time texting you
5 minutes pass and I'm sitting here texting you
I guess I'm stuck on you, with extra glue
You should get the point, like a decimal
But just remember, buu I'll always remember you
No matter what we going through
I'll always wish the best for you

Every day I think of you
I just think in my mind
Can you be that special one
I'm stuck on you

The date, the time, the seasons, they change (I'm stuck
on you)
My love for you remains the same (I'm stuck on you)
I'm stuck, yeah baby I'm stuck (I'm stuck on you)
I'm stuck

We did it all together
Standing before together
I'm stuck on you like twins who were born together
We were poor together

We were born together
I'll walk a thousand miles for you in the strongest
weather
You say love is pain
But ill take the risk
Because my heart is hurt
Its been taking hits
I need a break from this
You on my mind like you tatted your name on it

All I want is your love
All I need is your trust
So baby youuu (Yeahh)
So baby youuu
All I want is your love
All I need is your trust
So baby youuu (Woo)
So baby youuu (Kidstar, Tell Em)

Every day I think of you (Yeah)
I just think in my mind (You on my mind baby)
Can you be that special one
I'm stuck on youuu
I'm stuck on youuu (Yeah)
I'm stuck on youuu
I'm stuck on youuu
I'm stuck on youuuuuuuuu

The date, the time, the seasons, they change
My love for you remains the same
I'm stuck, yeah baby I'm stuck

The date, the time, the seasons, they change
My love for you remains the same
I'm stuck, I'm stuck yeah

We did it all together
I'm stuck on you like twins who were born together
Like twins who were born together
Like twins who were born together
We did it all together
Standing before together
I'm stuck on you like twins who were born together
A lot like twins who were born together
